
TRACTOR POWER TAKE-OFF HORSEPOWER RATINGS

TRACTOR POWER TAKE-OFF

HORSEPOWER RATINGS

This is a reference to be used for surveys requiring tractor manufacturer, make, model, model series, fuel type, and power take-off (PTO) horsepower.

The tractor power take-off horsepower ratings in this listing are taken from Nebraska tests, manufacturer's rating and engine brake horsepower adjusted to power take-off.

Designation Key

Fuel type

DIST - Distillates

DSL - Diesel

GAS - Leaded/Unleaded Gasoline

LPG - LP Gasoline

Other Abbreviations

2WD - 2 Wheel Drive

4WD - 4 Wheel Drive

ART - Articulated

FWA - Front Wheel Assist

MFWD - Mechanical Front Wheel Drive

NOTE....Confusion can occur in attempting to find the tractor PTO horsepower for a specific model number. For instance, when an International Harvester (IH) model tractor is incorrectly designated as a JI Case model or vice versa, it will be necessary to check the same model number under JI Case and vice versa.
