

This diagram illustrates the assembly of a hydraulic system, showing the following components and their connections:

- Valves and Solenoids:**
 - Y268** and **Y414**: Solenoid valves with ports **A2** and **T**.
 - Y410**: A 3-way solenoid valve with ports **A**, **T**, and **P**.
- Connectors and Fittings:**
 - 20**: Braided hose with a female connector.
 - 47**: A small block connector.
 - 48**: A male connector.
 - 49**: A plug or cap.
 - 40**: A T-junction fitting.
 - 50**: A 90-degree elbow fitting.
 - 15**: A small plug or cap.
 - 12**: A small O-ring or seal.
 - 11**: A long bolt or screw.
 - 30**: A braided hose with a female connector.
 - 45**: A T-junction fitting.
- Ports and Labels:**
 - A**: Main inlet port, indicated by an arrow.
 - T**: Tank or return port, indicated by an arrow.
 - P**: Pressure port.
 - A1**: Port on the right-hand valve assembly.
 - a**: Port on the left-hand valve assembly.
- Assembly Notes:**
 - Dashed lines indicate the assembly path and connection points between components.
 - Arrows indicate the flow direction for ports **A** and **T**.
